

EFRS student session 2018

SHAPE YOUR SKILLS

*“Assess your competency and
get your competences recognized”*

Thursday 1st of March 2018
Austria Centre Room 2.83 Level 2

Now, as during the whole history of radiography, our profession and education is in rapid change. Our profession demands deep understanding about the core of radiographers' own professional areas in medical imaging, radiotherapy and nuclear medicine and In addition we need interprofessional competences e.g. in many medical, technical and social fields.

It is not enough to only acquire the competences once but we also need to continuously update and evaluate these.

The aim of EFRS student seminar 2018

is to share and discuss best practices in competence assessment methods and to ask the student viewpoint to a European Radiographer Diploma.

- 10.30 Opening - Andrew England EFRS Educational Wing MT member
- 10.40 Introduction - European Diploma - Jonathan McNulty EFRS President
- 10.55 Introduction to Competence assessment methods – speaker to be confirmed
- 11.10 **Subgroup discussions:**
 *The methods of competence assessment used in educational institutions.
 * The interest of a European Diploma for Radiographers
- 12.00 **Presentation** discussion outcomes by the group leaders
- 12.30 **Conclusions and action planning**
- 13.00 **Closing**
